Re: Tenneco's Potential Responsibility for Environmental Issues at the Former Wilcox Oil Company, Bristow, Oklahoma

Dear Mr. Sherrill:

The Oklahoma Department of Environmental Quality (DEQ) is investigating a former oil refinery, which was known as Wilcox Oil Company (CERCLIS # OK0001010917) located in Bristow, Oklahoma. The property is being investigated by DEQ under the authority of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (CERCLA), as amended by the Superfund Amendments and Reauthorization Act of 1986 (SARA), pursuant to a Cooperative Agreement (#V-96688701) with the U.S. Environmental Protection Agency (EPA). The purpose of these investigations is to collect sufficient information concerning conditions at the site to assess the extent of the threat the site poses to human health and the environment.

The DEQ has determined that the site was owned and operated as a refinery from approximately 1915 to 1963. The Wilcox Oil Company operated a crude oil refinery at the site from the 1920s to early 1960s. Available information indicates that the Wilcox Oil Company merged with Tenneco Oil Company in 1965.

The former Wilcox refinery site occupies approximately 125 acres and is located in the N/2, NW/4, Section 29, Township 16 North, Range 9 East and in SW/4, Section 20, Township 16 North, Range 9 East, Indian Meridian, Creek County, Oklahoma. A large volume of visible waste is present at the site, especially in the process area and crude oil tank farm. Elevated levels of metals and organic compounds have been detected in surface soils and sediments. A church with a playground and six residences are located on the former refinery. Evidence suggests numerous children reside in each residence. Many of the homes have private wells on their property.

EPA Region 6 is moving towards preparation of a Hazard Ranking System (HRS) package for the site in order to support proposing the site to the National Priorities List. However, Region 6 has allowed DEQ an opportunity to contact the potentially responsible parties (PRPs) to discuss options available through the state's voluntary clean-up program.

The DEQ would like to discuss the possibility of Tenneco entering our Voluntary Cleanup or Brownfields Program to address environmental contamination at the site. Enclosed is specific information indicating the location and ownership of the refinery and the connection to Tenneco.

Please contact me by December 1, 2011, to schedule a meeting to discuss this matter. You may reach me at (405) 702-5157 or [amy.brittain@deq.ok.gov](mailto:amy.brittain@deq.ok.gov). Further information concerning DEQ's cleanup programs can be found on our website <http://www.deq.state.ok.us/lpdnew/index.htm>.
